DTM Dashboard Profile

The program has four tabs at the main page:

- Products.
- Database Connections.
- Recent projects.
- SQL library viewer.

The products page allows the user to:

- Run the product clicking the icon at the left side.
- View the currently installed version of the tool, if applicable.
- Open online help for the tool.
- Open order webpage of the tool for demo versions.

This list contains stored connection definitions. It is shared list of the connection that an be used in any DTM database tool.

Products	Connections	Recent Projects

Stored Connections List

Mode	Interface	Source or Server	User	Owner	Database	Note
Direct	ODBC	.			Northwind	Local Northwind DB
Direct	ODBC	localhost	root		test	Local Northwind DB
Desktop	OLE DB			dbo		NovSib
Direct	ODBC	192.168.137.2\SQLEXPRESS	sa			2012 Express server
Direct	ODBC	localhost	root		SupportSpace	SupportSpace
Desktop	OLE DB	ACCESS		dbo		Section

Open selected database with DTM Data Editor

Export One... Save... Load...

If you have installed DTM Data Editor the program allows you to open it for the selected connection.

Also, this tab provides users with a way to export all or single connection properties as well as import it from the file.

This page contains a list of recently opened or modified project files.
The program shows:

- Project file name and path
- Last modification time
- Project author, if available
- Project description, if available

Project	Folder	Last Update		Author	Note
99.dgp	D:\	22-Jan-2015	21:10:31		
2.stp	D:\Projects And Files\	01-Feb-2015	22:30:09		
1.rpr	D:\Projects And Files\	15-Mar-2013	11:03:38		Database Schema Report
library2sqlite.mkp	D:\dtm\dg\Library\cvt\	02-Nov-2014	14:45:12		
90.eve	D:\	28-Jan-2015	09:49:26		
t1.xmlpr	D:\	18-Jan-2015	10:25:48		
dependencies.ffgp	D:\dtm\dg\FlatFileGen2\exam...	23-Jan-2015	15:04:28	Support Team	Sample project with column-t...
Profiles.dgxp	D:\	28-Jan-2015	10:38:25		
OneUser.gjspr	D:\Projects And Files\	17-Oct-2014	07:20:02		

SQL Library

The library page allows the user to:

- Select existing SQL library, if it was specified in DTM SQL editor or DTM DB Stress.
- Navigate the selected library.
- View library content.
